Dear Josh:

Once again, I am in your debt for speaking out in support of the Whitehead Institute at the meeting of the Bar Association yesterday.

It certainly gets to be absurd when after both you and I tried to make the point, this gentleman defended himself by saying he thought the conference was to be about "Industrial" relations with universities.

As I suggested, I am sending you a copy of my talk. I would be particularly interested in your views on the concluding remarks, as I believe there is great merit to this idea. If there is, it should be taken up by the science universities, and a strong political lobbying effort should be made.

Once again, thank you!

With kind regards,

Sincerely,

Jack
